Dear Harry:

It is with great pleasure that I take this opportunity to congratulate you and all our student health colleagues, past and present, on an outstanding 90 years of service to our students, faculty and community.

As you know one of the highlights of my career was having the opportunity and privilege to be the surgeon for student health for 17 years. University of Arizona Student Health Service represented (and still does) one of the finest holistic, integrated and compassionate group practices I have ever known. In fact, while Surgeon General I would frequently say that the University of Arizona Student Health Services is the type of healthcare practice that all Americans should have.

I wish you and our colleagues many more years of exemplary practice and success.

Most sincerely,

Richard H. Carmona
