David Salafsky, MPH
Interim Director of Health Promotion & Preventive Services
UA Campus Health Service
1224 E. Lowell St.
Tucson, AZ 85721

Dear Mr. Salafsky,

I would like to offer my congratulations to the UA Campus Health Service for 90 years of quality service to the campus community. Additionally, I would like to praise Campus Health for earning its 11th consecutive accreditation from the Accreditation Association for Ambulatory Health Care.

For nearly a century, the care offered to the UA community by Campus Health has been outstanding. The Campus Health staff's diverse knowledge is an integral component to the overall quality of care.

Campus Health's continuing commitment to providing excellent health services is more important than ever. In a time when people are finding it increasingly more difficult to have access to quality health care, Campus Health offers reliable service. I am confident Campus Health will continue to be among the leaders in the health care field.

Once again, congratulations on the historic milestone. I wish Campus Health continued success in the future.

Sincerely,

Raúl M. Grijalva
Member of Congress
